

Biological Screening Workshop

Report Writing

Report Writing

- **Laboratories have different ways of reporting similar results**
- **The guidelines presented in this workshop are representative of typical phrases used in reports, and can be used for reference**
- **Analysts should follow their laboratory's specific report writing guidelines**

Report Writing

- **The President's DNA Initiative - DNA Analyst Training: Communicating Results provides a table with reference reporting phrases**
- **For the purposes of this workshop, the phrases listed will be used for mock reports**
